REDEFINING ROTONDA GATE OPERATIONS

Gate operations at the Rotonda have always been somewhat problematic. The biggest problem is we have some 3,000 vehicles each day passing through our gates, and the gatehouses are limited in the number of personnel that can work at any given time to process

the vehicles. Other problems stem from gate personnel not carefully following access procedures, which is often compounded by residents not providing timely advanced information on expected visitors. Adding technology to ease the congestion and confusion has proved problematic because the aging infrastructure in the gatehouse simply will not support it. The results, which we all see and hear about, are missed calls to alert residents about incoming visitors and other visitors not being properly vetted. Something had to be done.

In its mid-November the Board approved a contract with Hartman, Briddell, Watkins Construction (HBW) to replace the front gate (Greensboro Drive) gatehouse, renovate the back gate (International Drive) gatehouse, and construct two new pedestrian gates, one near each vehicle gate. The million-dollar project is the first step in redefining how the Rotonda handles incoming and outgoing vehicle and pedestrian traffic. The Board would like to eventually automate many of the now manual operations conducted by our Access and Patrol personnel, but the 45-year-old electrical infrastructure in the present gate houses will not support the needed changes.

Another part of this large project is the creation of the two new pedestrian gates near the vehicle gates. The rationale behind these new gates is two-fold: To provide better pedestrian safety and to better control pedestrian access into the property. Right now, pedestrians compete for space with cars and trucks within the gates and have to dodge incoming and outgoing vehicles. Controlling pedestrian access by requiring a fob to open the new people gates is necessary to help us cope with increased crime in the Tysons area, much of which has been brought about by the Metro providing easy access to the Tysons area for criminals.

While the construction details have not been worked out yet, we expect work on the entire project to begin in early spring and will likely extend until late summer or early fall. The contract specifies that normal gate operations must continue at both gates throughout the construction period. This, of course, made the project somewhat more expensive and lengthened the construction time, but we have to maintain access for not only residents, but also moving vans, repair and maintenance vehicles, school buses, and emergency vehicles.

What this means for the short term is that for much of 2024 we can expect delays at the gates because of increased queuing caused by lane restrictions and disruptions to our antiquated electronic access control system, and we ask for everyone's patience. Once this project is behind us, we will be looking at technology to help us modernize and streamline all of our gate operations. License plate readers and perhaps the use of multiple levels of automatic passes, like we now have for residents, can be used to speed access for regular visitors, such as maids and care givers, and free gate personnel to concentrate on those visitors that require a different level of scrutiny.

RCUOA ANNUAL MEETING

HIGHLIGHTS FROM THE ANNUAL MEETING HELD DEC 5 2023

The Rotonda Condo Unit Owners Association's Annual Meeting was held on Tuesday, December 5, 2023 via Zoom with the option to participate in person in the lower level of the Community Center where the general store used to be, where a projector screen, sound system, and seats were set up.

President Doug Doolittle presented his Annual Address where he reviewed the events and accomplishments of the past year. A slide show presentation highlighted major projects and events of 2023; as well as plans for the future.

This annual event also involved the election of members to the Board of Directors and owners had the option of voting in online or in-person using the voting boxes set up in the Community Center mezzanine during the month of November. This year, three Board seats were up for election, with each being for a three-year term. The Board appointed members to an Election Committee to serve as inspectors of the election and to oversee the counting of the ballots. Election Committee Chair Wanda Houston announced the election results, which were: Deena Gordon Parla, Danielle Lasley, and Margo Torbett were elected to the Board of Directors.

President Doolittle answered all questions asked in-person or submitted via the Q&A forum on Zoom. The following topics were raised: smoking in front of buildings; littering around the property; reckless driving on the property; and the percentage of owner versus renter-occupied units.

Residents who were not able to attend the Annual Meeting in real time can view the President's Address on the State of the Rotonda and Annual Presentation on Building Link under Building Library/Annual Meeting & Election/2023 Election.

CANDLE SAFETY

GUIDELINES TO AVOID FIRES IN YOUR UNIT

There's no doubt that flickering candle flames set a beautiful and tranquil scene and during the holiday season, the use of candles – from small tea lights to large pillars – is at peak popularity. But fire of any type, even the smallest of flames, can be dangerous so please exercise caution and remember these safety rules:

- Never leave a burning candle unattended.
- Never burn a candle on or near anything that might catch fire.
- Keep candles out of the reach of children and pets.

Always use a candle holder designed for use with burning candles and never use a candle as a night-light or while sleeping.

Another 5 Star Review from a Rotonda Client!

"I live 700 miles away, so it was so nice having Renneye Pike close by to get the property ready for sale. She was on top of every detail, from initial contact until closing. Her professionalism, knowledge, kindness, and much much physical help made the process so nice for me. Thank you Renneye!"

Renneye Pike was fantastic. Her knowledge of the area and local market was impressive. She was incredibly organized and always kept me informed. I would absolutely recommend her without reservation.

Having Renneye Pike as my agent was like having a friend on the "inside" that is working for me. She really cares about her clients as well as the community and neighborhood she's doing business in.

From the first time I reached out to Renneye, she answered immediately. She was a true professional. I always felt like she had my best interest in mind and that I had both a friend and a Real Estate agent. I have and will continue to recommend her to anyone in that area."

EMBRACE WINTER'S CHILL

WINTERIZATION GUIDELINES FOR A SAFE WINTER SEASON

As the winter season descends upon us, a frosty transformation awaits just around the corner. At Rotonda, our dedicated team is gearing up to tackle the challenges of freezing precipitation and keep our community safe. This winter, let's join forces to support their efforts in clearing snow and ice. Here are some proactive ways residents can contribute:

1. Maximize Personal Garage Spaces: Utilize your personal garage spaces to minimize the impact on communal areas.
2. Respect Snow Removal Equipment: Yield to snow removal equipment as it navigates the property, allowing for efficient and thorough clearing.
3. Exercise Caution in Slippery Conditions: Be mindful of slippery conditions while traveling outside, ensuring your safety and the safety of those around you.
4. Clear Snow Around Your Vehicle: Assist staff by clearing snow from around your vehicle, especially in areas behind handicapped parking spaces.
5. Mind Parking Regulations: Avoid parking at yellow curbs, No Parking Zones, or barricaded areas designated for plow snow piles.

Remember, safety is paramount:

Stay Away from Pond Edges: Despite appearances, the surface of ponds may not be as solid as it seems. Avoid the edges and stay completely off the surface to prevent the risk of hypothermia and drowning.

Your cooperation in practicing winter and inclement weather safety is invaluable. For more details on snow and ice procedures, as well as contacts for Fairfax County and the National Weather Service, download our comprehensive Winter Weather brochure.

The Winter Weather Brochure is available at the front desk or on Building Link under the Building Library/ Brochures/ Winter Weather

Stay informed about weather conditions with the National Weather Service at www.weather.gov or by calling 703-996-2200 Ext. 1
